南南学院旨在打造全球最具吸引力的国家发展研究机构、最具潜力的发展中国家高端人才培养基地、最具活力的全球治理的交流平台，与其他发展中国家分享国家发展的知识和理念，加强国际合作，促进公平、包容、可持续发展。

南南学院的师资主要来自于在中国享有盛誉，聚教学、科研和智库为一体的北京大学国家发展研究院。同时，南南学院得到了北京大学相关院系和其他机构的杰出专家学

者，以及政府部门高级官员的鼎力支持，营造宽松、自由、求真、创新的跨学科学习环境，面对复杂多变的现实世界，搭建理论联系实际的桥梁。

南南学院设有学位教育项目和非学位培训项目。学位项目的课程设置以经济学为核心，以问题解决为导向，同时涵盖量化分析、政治制度、战略管理、领导力和全球化。

南南学院是北京大学国际化教育的旗舰，课程均用英文讲授，通过课程学习、現地教学，以及内容广泛的政策专题讨论与研究（涉及教育与减贫、人口与健康、社会保障与公共安全、城市规划与土地制度改革、能源与环境、产业进步与技术创新、全球治理与外交政策等），培养学员成为具有综合理论知识、广阔的国际视野、开放的科学思维、致力于国家发展与政策制定的高端管理人才。2017年7月6日，南南学院首届26名硕士毕业生在毕业典礼现场朗读致习近平主席的感谢信，感谢中国政府给予他们提升知识水平、学习中国改革开放成功经验的机会。2017年10月11日，习近平主席给南南学院首届硕士生回信，鼓励毕业生成为各自国家改革发展的领导者。

The idea that China establishes the Institute of South-South Cooperation and Development was initiated and announced by Chinese President XI Jinping during the High-Level Roundtable on South-South Cooperation at the 70th Anniversary Celebration of the United Nations in New York on September 26, 2015. With strong support from the Ministry of Commerce, the Ministry of Education, and the Ministry of Finance, and by virtue of Peking University's strength in humanities and social sciences, Institute of South-South Cooperation and Development (ISSCAD) was officially established at the National School of Development of Peking University (NSD) on April 29, 2016. President XI Jinping has announced that China will enhance development experience-sharing and capacity-building cooperation with other countries through the platform of the Institute of South-South Cooperation and Development during his host of the Dialogue of Emerging Market and Developing Countries on September 5, 2017 in Xiamen, Fujian.

Combining local knowledge with global vision, the new Institute is committed to excellence in national development research, talent training for developing countries, and dynamic exchange platform for global cooperation, and devoted to promoting equitable, inclusive and sustainable growth by sharing knowledge and experience on matters of public leadership and national development, with developing and especially the least developed countries.

The core faculty of ISSCAD draws heavily from NSD, which has an established reputation both academically and as a policy think-tank in China. Well aware that to craft effective solutions to complex real-world problems would require a multidisciplinary and actionable approach, the core faculty is also supported synergistically by a scalable

network of select faculty and professional (including senior government officials) associates from other schools and departments of Peking University and beyond. The purpose is to nurture a vibrant interdisciplinary learning environment that encourages intense inquiry, open dialogue, and cross-cultural learning, and serves as a bridge between theory and practice.

The Institute offers both degree programs and non-degree executive educational programs. Our degree programs feature a rigorous economics-centered and problem-solving oriented curriculum which also covers quantitative analysis, political institutions, strategic management, leadership, and globalization.

A flagship of internationalization of education at Peking University, the Institute offers regular semester-based courses in English. Through these regular courses, supplemented by fieldwork and workshops on various policy domains (such as education and poverty reduction, population and public health, social security and public safety, urban development and land reform, energy and environment, industrial upgrading and technological innovation, and global governance and foreign policy), students are expected to develop a box of conceptual tools that is cross-disciplinary in nature but adapted for actions appropriate for local or country-specific conditions. On behalf of the Institute's first 26 master graduates, a student representative read out a thank-you letter to President XI Jinping at their Commencement Ceremony on July 6, 2017, thanking China for giving them the opportunity to learn more about the country's experiences in reform and opening-up. On October 11, 2017, President XI Jinping encouraged graduates of the Institute of South-South Cooperation and Development at Peking University to be leaders of reform and development in their own countries by replying them the letter.

Dear first class of ISCD master's graduates,

Greetings to you all! Thank you for your letter. I am delighted to know that you have successfully completed your studies and become the first class of masters graduated from the Institute of South-South Cooperation and Development (ISCD). I am glad that you have reflected on what you learned and found your studies rewarding.

As you have mentioned in your letter, promoting fair, inclusive and sustainable development is the common wish of all. That is exactly why China proposed to establish the ISCD in the first place. South-South Cooperation is a great cause for developing countries to enhance their strength through unity and take on challenges. China will fully leverage the ISCD as a platform for promoting South-South Cooperation and helping developing countries embark on a journey towards development and prosperity.

As the first class of ISCD graduates, you have earned great honor and carry glorious missions. I hope that you will always keep learning to prepare yourselves for greater success and serve as leaders for reform and development in your home countries by practicing what you have learned in the exploration of a sustainable development path suited to your national conditions. I hope you will also cherish the bonds developed in China with your teachers, classmates and friends, start a new chapter of friendly cooperation between your countries and China, and serve as practitioners of South-South Cooperation around the globe.

Please send my best regards to your families. You are welcomed to visit China again at all times!

Xi Jinping
President of the People's Republic of China

Chinese President Xi Jinping has encouraged master graduates of the Institute of South-South Cooperation and Development at Peking University to be leaders of reform and development in their own countries.
